

ENTREPRENEDEU

Enhancing entrepreneurial ecosystems for education

PRESS KIT
MARCH 2023

ABOUT ENTREPRENEDU

ENTREPRENEDU project is an initiative funded under the Horizon Europe's Research and Innovation Programme with an aim of enhancing entrepreneurial ecosystems for education.

ENTREPRENEDU aims at enhancing the proliferation of new business models and entrepreneurial skills, directly involving 90 teams of youth (age 18 to 30 years old), in 3 different Hackathons organised in Rimini (Italy), Sofia (Bulgaria) and Athens (Greece). After each Hackathon, the ENTREPRENEDU initiative will support the 4 most viable and promising ideas and concepts (12 in total) from the early stages to the commercialization of their solutions. The winners will be invited to 60h mentoring and coaching sessions in various business and strategic topics.

In that way, ENTREPRENEDU will enable a highly-replicable education model - Venture Building Programme - to provide business know-how for young Europeans, which will be validated in 3 educational institutions in Italy, Greece and Bulgaria.

The ENTREPRENEDU unique and interdisciplinary methodology will enhance entrepreneurial know-how and business skills and activities in less and moderate developed innovation regions, thus reinforcing their acceleration capacity and enabling youth to scale their concept to fully concrete solutions with strong market potential, subsequently enhancing the development and competitiveness of these regions.
