

## ENTREPRENEDU PROJECT IS ENHANCING ENTREPRENEURIAL ECOSYSTEMS FOR EDUCATION

**Rome, 01.02.2023.**

ENTREPRENEDU is the initiative funded by the European Innovation Council and SMEs Executive Agency (EISMEA) with an aim of enhancing entrepreneurial ecosystems for education.

The ENTREPRENEDU consortium is coordinated by Fondazione E. Amaldi based in Rome (Italy), and brings together different innovation stakeholders and educational entities from 6 different European countries - Italy, Bulgaria, Greece, Belgium, Germany and Ireland. The initiative held its kick-off meeting on the 30-31st of January and 1st of February 2023 in Rome (Italy) where the project's roadmap was presented.

ENTREPRENEDU aims at enhancing the proliferation of new business models and entrepreneurial skills, directly involving 90 teams of youth (age 18 to 30 years old), in 3 different Hackathons. The ENTREPRENEDU initiative will support the 12 most viable and promising ideas and concepts from the early stages to the commercialization of their solutions. In that way, ENTREPRENEDU will enable a highly replicable model to provide business know-how for young Europeans, which will be validated in 3 educational institutions in Italy, Greece and Bulgaria, as well as a Venture Building Program (educational model) to be validated in 2 Universities and 1 VET (Vocational Education and Training) entity on 90 students.

The ENTREPRENEDU unique and interdisciplinary methodology will enhance entrepreneurial know-how and business skills and activities in less and moderate developed innovation regions, thus reinforcing their acceleration capacity and enabling youth to scale their concept to fully concrete solutions with strong market potential, subsequently enhancing the development and competitiveness of these regions.
