EXECUTIVE SUMMARY

The ENTREPRENEDU project is focused on closing the innovation and educational gap between European Union countries that have unbalanced business activities and fewer job opportunities, due to less developed entrepreneurial ecosystems.

The report D7.2 Dissemination and Communication Plan - final release is the second part of the Dissemination and Communication Plan, highlighted in D7.1 Dissemination and Communication Plan. It provides information on dissemination and communication activities carried out by the ENTREPRENEDU project until January 2024 and its results.

The Dissemination and Communication strategy was divided into three distinct phases with well-defined objectives, being the project currently in the final phase aiming at increasing awareness within the project community, including project stakeholders, and providing visibility to main project's outputs. With six months left until the closure of the project, the majority of the Dissemination and Communication KPIs were already achieved, without any deviation foreseen in this chapter.

Channels used as part of the communication and dissemination actions included social media platforms (such as [LinkedIn](#), [Facebook](#), [Instagram](#), [X](#), and [YouTube](#)), [website](#), and [F6S platform](#). **This multichannel approach was essential to reach out the target audience and achieve the project goals.**

As a result of the dissemination and communication activities a total of 5 videos, 24 blog articles, 26 external media outputs, 8 press releases, 11 newsletters, 8 participation in events, among others, were developed.

LinkedIn became the go to social media platform with the biggest project community being present there (438 followers). Moreover, it also serves as a storytelling proxy since the project's trajectory since inception can be followed and consulted here.

As part of the special promotion campaign of the Hackathons, HackTheBusiness concept and brand was created to better identify and express the project's scope and objective: close the innovation and educational gap by helping young entrepreneurial minds "hack" (i.e. demystify) the business. **More than 1 million potential applicants were reached out by these campaigns, helping Italian, Greek and Bulgarian editions to succeed in their goals.**

[EDU's promotional video](#) premiered during the HackTheBusiness Italy and he was later introduced to the ENTREPRENEDU digital community during his Eurotrip, a different and funny way to get to know our partners.

This report highlights the actions and results from the Dissemination and Communication activities undertaken during the first 24 months. There are still six more left to do more and reach the KPIs, while providing relevant and essential information to our community in a fun and attractive way.

1 INTRODUCTION

The report **D7.2 Dissemination & Communication Plan - final release** is the second report of WP7 - Dissemination and Communication of the ENTREPRENEDU project. It corresponds to the updated version of the D7.1 Dissemination & Communication Plan.

While the first report leans over the main plan and defined strategy, featuring target audience profiles, branding concept and scope, visuals, among others, the updated version focuses on the results of the dissemination and communication activities implemented by the ENTREPRENEDU consortium.

The dissemination and communication strategy for the ENTREPRENEDU project is divided into three phases, being the last one currently in place with the aim to maximize awareness of project activities. This will result in a higher number of the ENTREPRENEDU community members being reached out. As the project walks towards its closing phase, any featured strategy will represent a big contribution to the exploitation activities, managed within WP6 - Venture Building Program refinement and mutual learning.

Note that the report covers 24 months (out of 30) of the project lifetime, meaning that final results from the dissemination and communication activities will only be known upon the closure of the project. Nevertheless, the preliminary assessment provides excellent guidance on KPIs achievement and potential deviations, which will indicate whether the implementation of corrective actions is necessary or not and the overall success of the project's Dissemination & Communication Strategy

The following chapters are covered in the report:

- **Chapter 1. Introduction** presents a brief description of the report's scope and goal.
- **Chapter 2. Communication and Dissemination Plan** provides an overview of the implementation of the communication and dissemination strategies.
- **Chapter 3. Results** highlights the main results from the communication and dissemination activities.
- **Chapter 4. Conclusion** presents the main takeaways of the report.

2 COMMUNICATION AND DISSEMINATION PLAN (FINAL)

The ENTREPRENEDU communication and dissemination plan described in the **Deliverable 7.1 Dissemination and Communication Plan**, was a strategically planned process with a diverse set of interactive and engaging tools and actions targeting the ENTREPRENEDU main stakeholders and delivering the story of the ENTREPRENEDU journey.

As the project progressed, the communication plan, divided in 3 main complementary phases, centered around empowering young innovators and sharing their stories as well as positioning the ENTREPRENEDU team as their “business companion” and mentor, has proven itself effective over the past 24 months:

- The **first phase [M1-M3]** included the brand development and awareness creation, by following the idea of the young and vibrant entrepreneurial ecosystem ENTREPRENEDU is targeting. The main objective of this phase was to engage stakeholders and enlighten their interest in the project. As a result, the created ENTREPRENEDU brand identity is energetic, professional and modern, highlighted by a vibrant and playful set of colours. In this way, the ENTREPRENEDU project managed to gather a community of young innovators, as well as other stakeholders interested in projects’ objectives and ENTREPRENEDU mission to enhance entrepreneurial education in Europe.
- The **second phase [M4-M18]** included a structured way of informing the target audience about up-to-date insights, while using diverse ENTREPRENEDU online channels (such as [LinkedIn](#), [Facebook](#), [Instagram](#), [X](#), and [YouTube](#)). Meaning that depending on the project activity being in progress, the outcomes were shared in alignment with the target audience mainly affected, across specific channels. Therefore, by following the Inbound marketing strategy as described in D7.1, this phase was executed with a stronger emphasis on a youth-centric approach. This led to a several key decisions made:
 - **Introducing ENTREPREN(EDU):** In M6, a dynamic character representing a young individual embarking on their entrepreneurial journey named EDU served as a relatable figure, guiding youth through the project's key milestones and showcasing the diverse opportunities available within the ENTREPRENEDU ecosystem. EDU was introduced in the form of an animated project explainer-video, showcasing project’s mission in an interactive mode.
 - **Youth-oriented tone of voice:** ENTREPRENEDU communication materials, including website content, social media posts and newsletters adopted a conversational and engaging tone. The idea was to communicate updates in clear, but friendly language, fostering audience participation and a sense of community among young innovators.

- **Interactive content:** Interactive elements were incorporated into the communication strategy, such as engaging memes on the website, promotional materials and interactive polls on social media. These elements encouraged engagement of the younger audience and positioning ENTREPRENEDU activities as an opportunity of their interest.
- Currently, in M24, the project is in the **third phase [M19-M30]**, and final stage of the strategic plan implementation, which means maximising awareness of the key stakeholders on ENTREPRENEDU impact and demonstrating more advanced results of the project. In this phase, the key focus is shifting to stakeholders such as Academia, Industry, Investors and Policy Makers. For example, while a series of 3 ENTREPRENEDU hackathons were disseminated via Instagram Stories ([HackTheBusiness Italy](#), [HackTheBusiness Greece](#) and [HackTheBusiness Bulgaria](#)) as an additional way to engage youth in phase two, ENTREPRENEDU scientific publications were disseminated via the ENTREPRENEDU [website](#), [LinkedIn](#) and [Zenodo](#) account, as more informative and professional channels.

In this same period, by referring to the [Making the Most of Your H2020 Project](#) from the [European IPR Helpdesk](#) booklet which is the basic concept behind projects' theoretical approach, the dissemination plan is being implemented simultaneously, as described in the Deliverable 7.1. Therefore, ENTREPRENEDU results are being publicly available as developed, to those who could benefit from them, such as university professors, industry, policy makers, investors, public authorities or civil society.

Up to M24, the main deviation from the initial version of the ENTREPRENEDU communication and dissemination plan, related to the implementation of the predicted tools and channels, as well as monitoring, is identified as follows:

- Social media: The rebranding of Twitter to X in late 2023 presented a challenge in the performance of the ENTREPRENEDU [Twitter](#) account, accompanied by significant platform instability, including frequent outages, algorithm changes, and a decline in user experience. This instability disrupted the flow of information and made it difficult to maintain a consistent presence on the platform.

The Twitter to X transition highlighted the importance of the communication and dissemination strategy from the initial ENTREPRENEDU communication and dissemination plan described in the Deliverable 7.1, such as platform diversification. Since the beginning, ENTREPRENEDU has been present on five social media platforms, including X. Diversifying communication channels was a crucial decision which ensured adaptability of the projects' social media presence. Recognising the continued strength of LinkedIn as a platform for reaching young professionals, the team shifted its focus to this platform, prioritising content creation and community engagement on LinkedIn. Moreover, regular evaluation of the X platform performance and audience engagement was continuously implemented to follow any changes in performances. So far, no progress has been noted.

3 RESULTS

By referring back to the Grant Agreement, in **Table 6** of the D7.1 Dissemination and Communication Plan, we have represented the communication and dissemination Key Performance Indicators (KPIs). To measure these KPIs, diverse evaluation and tracking systems were used, such as Google Analytics, social media metrics, and an internal dashboard created for this purpose. Table 1 serves as an extension to the table previously mentioned, with periodic time stamps and progress.

TABLE 1. ENTREPRENEDU KEY PERFORMANCE INDICATORS - M24 OVERVIEW

CHANNEL	KPI TRESHOLD	M24	% OF EXECUTION
WEBSITE	Website in M2	Website in M2	100.00%
	>1000 unique visitors	>5900 unique visitors	589.41%
	>20 references in other websites	23 references in other websites	114.99%
SOCIAL MEDIA	>200 followers on each social media page	>630 followers on five social media pages	62.94%
	>80 tweets	>170 tweets	209.87%
	>500 views per post	>3480 views per post	694.61%
VIDEOS	3 promotional videos	7 promotional videos	233.33%
JOURNAL/MAGAZINE ARTICLES, NEWSLETTERS, PRESS RELEASES	>6 journal articles	5 journal articles	83.33%
	>3 magazines news	26 magazines news	650.00%
	>4 newsletters per year	11 newsletters in total	275.00%
	>6 scientific papers released	5 scientific papers released	71.43%
INTERNATIONAL/NATIONAL CONFERENCES, SEMINARS, WORKSHOPS AND MEETINGS WITH CLUSTERS AND ASSOCIATIONS	>4 project outreach events	4 project outreach events	80.00%
	>4 total project presentations	4 total project presentations	80.00%
	>50 participants	>50 participants	100.00%
	3 social media campaigns	4 social media campaigns	133.33%
EVENTS IN THE REFERENCE SECTOR FOCUSING ON BOTH PROFESSIONAL AND GENERAL PUBLIC	> 4 events >3 MoU signed*	4 events	80.00%

	>3 signed collaboration partnerships*		
CLUSTERING WITH OTHER NATIONAL AND EU INITIATIVES	2-3 connections created*	-	-
POLICY RECOMMENDATIONS	> 8 supporting letters* > 2 recommendations* > 1 best practice inventory* > 3 guidelines on standard operating procedures*	-	-

**These activities are not being monitored and tracked within the scope of this report since they will be covered as part of activities from WP6 - Venture Building Program refinement and mutual learning.*

To measure the key indicators, the following evaluation elements were used:

- **Google Analytics** to track and report on the project website traffic.
- **Social Media metrics** to track engagement on ENTREPRENEDU's social networks.
- **Partners Dashboard** as an internal "live" document to track communication and dissemination activities, with contributions from all Consortium Partners.

The monitoring and evaluation framework outlined in D7.1 has effectively guided the analysis of ENTREPRENEDU's dissemination activities. This framework, based on predefined metrics for each platform, has enabled the regular evaluation, measurement, and improvement of dissemination efforts throughout the project.

Overall, by finding a right balance between youth engagement and tailoring the ENTREPRENEDU branding and messaging accordingly to different target audiences (youth, academia, investor, industry, policy makers), the project's main milestones are being successfully published across diverse communication and dissemination channels. However, there are 6 months left of the project, where we expect other KPIs to grow, as well.

A more detailed explanation of the current status of each communication and dissemination tool and channel used for implementing the strategy provided in the initial plan, will be provided in the next subsections of this document.

3.1 SOCIAL MEDIA

As stated in the Deliverable 7.1 Dissemination and Communication Plan, ENTREPRENEDU project is present on five social media channels including LinkedIn, Facebook, Twitter (X),

Instagram and YouTube, and has been active in producing and posting interactive content, tailored to the needs of its target audience. In total, the ENTREPRENEDU social media channels have to this date [M25] **639 followers**. This result can be seen in the metrics tracked for the each specific channel, as represented below:

- [LinkedIn](#) - 438 followers

FIGURE 1: ENTREPRENEDU LINKEDIN PAGE

- [Facebook](#) - 36 likes and 45 followers

FIGURE 2: ENTREPRENEDU FACEBOOK PAGE

- [Twitter \(X\)](#) - 176 posts (tweets) and 30 followers

FIGURE 3: ENTREPRENEDU TWITTER (X) PAGE

- [Instagram](#) - 110 followers and 89 posts

FIGURE 4: ENTREPRENEDU INSTAGRAM PAGE

- [YouTube](#) - 16 subscribers and 597 views

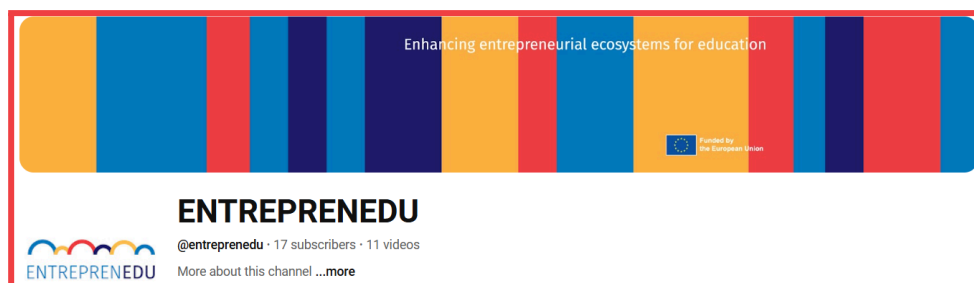

FIGURE 5: ENTREPRENEDU YouTube PAGE

With the highest number of followers and the most engaged community, [LinkedIn](#) has turned out to be the key ENTREPRENEDU social media platform. Since the creation of the account in February 2023 [M2], this profile alone has collected more than **148,000 impressions**, both total and sponsored. In the last 365 days, the audience following the ENTREPRENEDU LinkedIn engaged 932 times with the content through liking, sharing and commenting on the posts. Up to this date, the **total number of post engagements is 2,584**.

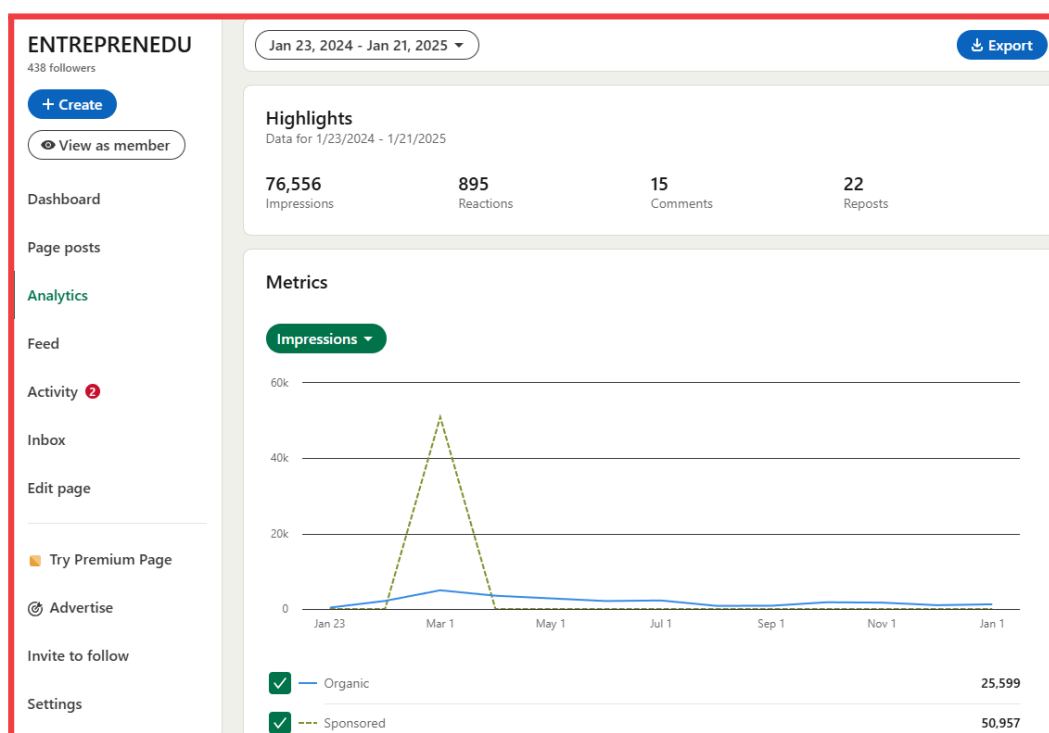

Figure 6: ENTREPRENEDU LINKEDIN HIGHLIGHTS FOR THE LAST 365 DAYS

Other ENTREPRENEDU media platforms, such as Facebook, Instagram, YouTube and occasionally Twitter (X), are used as dissemination channels for specific targeted groups, depending on the results being disseminated (for more information, consult D7.1).

Up to this date:

- [Facebook](#) reach is **20,200** with more than **1,700 visits**.

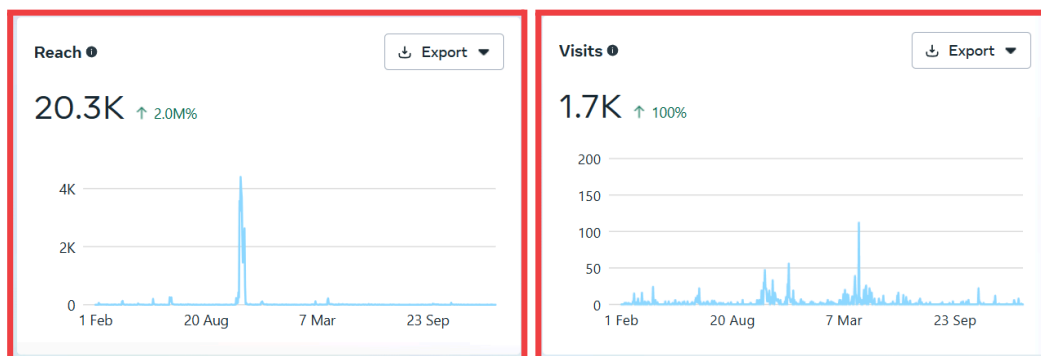

FIGURE 7: ENTREPRENEDU FACEBOOK PAGE - REACH AND VISITS

- [Instagram](#) counts **609 profile visits** and **444 link clicks** with more than 50% of the audience being **women**, mostly ages 25-44.

FIGURE 8: ENTREPRENEDU INSTAGRAM PAGE - DEMOGRAPHICS

- Twitter performance started to stagnate after July 2023 and tracking data was possible only via a paid account, due to its transition to X, as explained in the previous section of this document.

- [YouTube](#) gathered **1000 impressions** which led to **1.23 hours of watch time**.

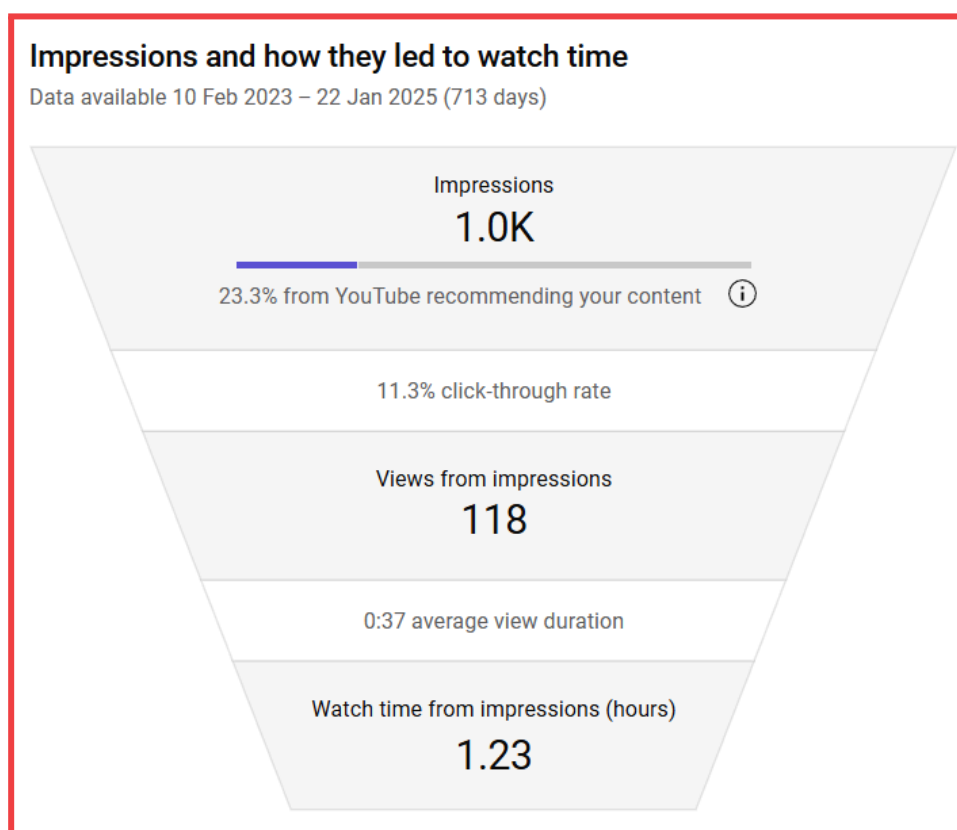

FIGURE 9: ENTREPRENEDU YOUTUBE PAGE - IMPRESSIONS AND WATCH TIME

3.1.1 SOCIAL MEDIA CAMPAIGNS

To enhance awareness, drive traffic, and engage stakeholders, the ENTREPRENEDU communication plan incorporated various campaigns. Some campaigns were already implemented, while others are being deployed or will be deployed in the future, depending on the project's evolving status.

Each social media campaign has a specific goal (sometimes more than one) which are:

- To **inform** and provide up-to-date insights about the project.
- To **educate** target audiences by sharing helpful content.
- To **engage** with key stakeholders by pinpointing relevant topics.
- To **activate** the target audience by expressing a clear call to action.

To provide concrete examples, a number of social media campaigns have been showcased in the table below, while all published posts are available in the [Appendix A: Social media activity](#).

3.1.2 SPECIAL SOCIAL MEDIA CAMPAIGNS

Together with regular, ENTREPRENEDU activities were presented via special social media campaigns (full list of materials are available at [ENTREPRENEDU's Zenodo Open Repository](#)). Three of four campaigns were oriented towards promoting and disseminating ENTREPRENEDU hackathons:

- **HackTheBusiness Italy** during April-June 2023

FIGURE 10: BANNER EXAMPLES FOR HACKTHEBUSINESS ITALY SPECIAL SOCIAL MEDIA CAMPAIGN

- **HackTheBusiness Greece** during September-December 2023

FIGURE 11: BANNER EXAMPLES FOR HACKTHEBUSINESS GREECE SPECIAL SOCIAL MEDIA CAMPAIGN

- **HackTheBusiness Bulgaria** during February-April 2024

FIGURE 12: BANNER EXAMPLES FOR HACKTHEBUSINESS BULGARIA SPECIAL SOCIAL MEDIA CAMPAIGN

The decision to name this series of hackathons **HackTheBusiness** came from a desire to create a unified and impactful brand identity around these campaigns. This rebranding process involved a collaborative effort within the ENTREPRENEDU consortium. Ultimately,

HackTheBusiness emerged as the preferred choice, reflecting the core values of the hackathon series and target audience (Youth), while maintaining a concise and catchy name.

To maximise participation and engagement in the three HackTheBusiness hackathons, a multi-channel communication strategy was implemented. A comprehensive campaign divided into pre-event, during-event, and post-event phase, included not only strong social media presence on all channels, but also promotion via [blog articles](#), [webinars](#), [warm-up sessions](#), [success stories](#), [case studies](#), [press releases](#), [special newsletters](#), [recap videos](#) and specific “HackTheBusiness” [website pages](#) designed for each event. However, social media played a pivotal role, with dedicated paid campaigns leveraging targeted advertising and engaging content to reach potential participants.

--	-------	---	---	---

As youth being our primary target audience during HackTheBusiness events, a special attention was dedicated to serving their personal and professional traits. Youth represents young professionals (18-30 years old) – high schoolers and university students interested in entrepreneurship, as well as young startup owners or future entrepreneurs who are dreaming of becoming an owner of a unicorn company in Europe. By developing a 3 series (different for each HackTheBusiness event as presented in figures 13, 14 and 15) of unique and funny meme-stickers, we adopted our approach specifically to them. The goal of this communication style was to make their HackTheBusiness experience correlated with positivity and sense of humor, not only strict professionalism. Our goal was for them to know that we are reachable, as their supporters and mentors.

Moreover, a new set of ENTREPRENEDU promotional materials was developed for each HackTheBusiness special social media campaign, such as tote bags, notebook designs, badges, and pen designs, depending on the request of the main hackathon organisers.

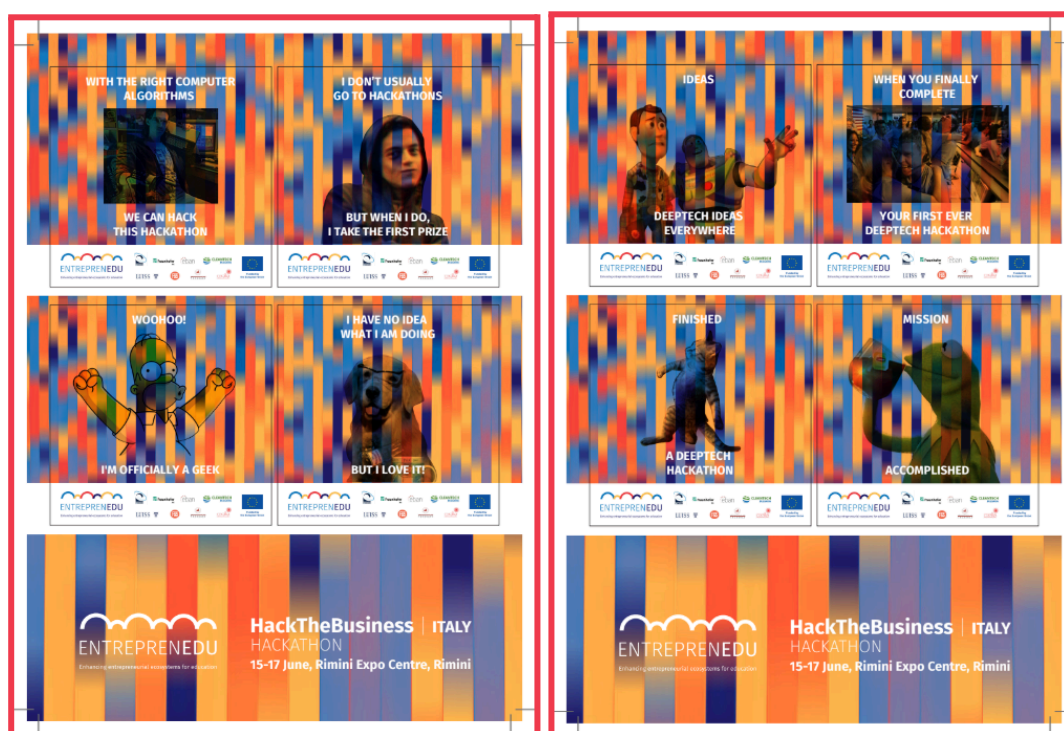

FIGURE 13: HACKTHEBUSINESS ITALY PROMOTIONAL MATERIALS – STICKERS

FIGURE 14: HACKTHEBUSINESS GREECE PROMOTIONAL MATERIALS – STICKERS

FIGURE 15: HACKTHEBUSINESS BULGARIA PROMOTIONAL MATERIALS - STICKERS

FIGURE 16: HACKTHEBUSINESS SPECIAL SOCIAL MEDIA CAMPAIGN - EXAMPLES OF OTHER PROMOTIONAL MATERIALS

This engaging approach proved successful in raising awareness, attracting the right participants, and fostering a vibrant, yet competitive atmosphere throughout the hackathon series. The table below presents overall social media campaign results.

TABLE 4: MAIN KEY PERFORMANCE INDICATORS RESULTS FROM SPECIAL SOCIAL MEDIA CAMPAIGN

KPIs	HTB Italy #1	HTB Greece #2	HTB Bulgaria #3	Total
Potential Applicants reached (total appox)	>134k	>1 million	>122k	>1.25 million
Potential Applicants reached - Social Media only (total appox)	>27k	>638k	>30k	>695k
No of visitors website	>580	>2000	>1200	>3780
No of visitors webpage	>450	>1700	>830	>2980

In addition to the previously mentioned campaigns, EDU's Eurotrip campaign was organised during summer 2023, as an interactive and "out of the box" way to introduce the ENTREPRENEDU team to our target audience, rendering it more personal and friendly. With that idea in mind, from Italy to Ireland, EDU traveled to all Consortium members' countries. This special campaign was published specifically on social media channels and promoted via newsletters.

FIGURE 17: BANNER EXAMPLES FOR EDU'S EUROTIP SPECIAL SOCIAL MEDIA CAMPAIGN

3.2 WEBSITE

The initial version of the ENTREPRENEDU website (www.entreprenedu.eu) was developed in M2. The website was regularly updated as the project was entering diverse phases of the implementation. Therefore, the initial version of the ENTREPRENEDU website has been upgraded with additional pages and sections, to the present:

- The [Home page](#) was regularly updated with additional information, such as HackTheBusiness call to action or an explainer video.
- The [Journey page](#) remained showcasing different phases of the ENTREPRENEDU project.
- The Insight page initially had three subpages: Blog, Press Kit, Communication Kit. In the third phase of the communication plan, the page was reorganised and currently includes a new subpage, named [Resources](#). The purpose of this new section is to showcase all ENTREPRENEDU major outcomes in open-access, divided by work packages.
- The HackTheBusiness page contains the following subpages: [HackTheBusiness Italy](#), [HackTheBusiness Greece](#) and [HackTheBusiness Bulgaria](#). These pages have been specifically developed to present the main information and registration point for three ENTREPRENEDU hackathons. All pages were updated after hackathons for dissemination purposes.
- The [Blog page](#) was initially part of the Insights. However, in the same period, this page was reorganised to be independent, showcasing all project's main updates.
- The [Contact page](#) still represents the helpdesk point for all interested parties.

Alongside these changes, the website remained the main leading point to all projects' updates and main outcomes.

To emphasise the visibility of the **Funded by the European Union** emblem, the website header was updated in July 2024 [M18]. The header is now fixed with an emblem always visible to the visitors. Additionally, the photo in the hero banner was updated with an emblem positioned in the upper right corner. As before, the emblem is still visible in the footer of the website.

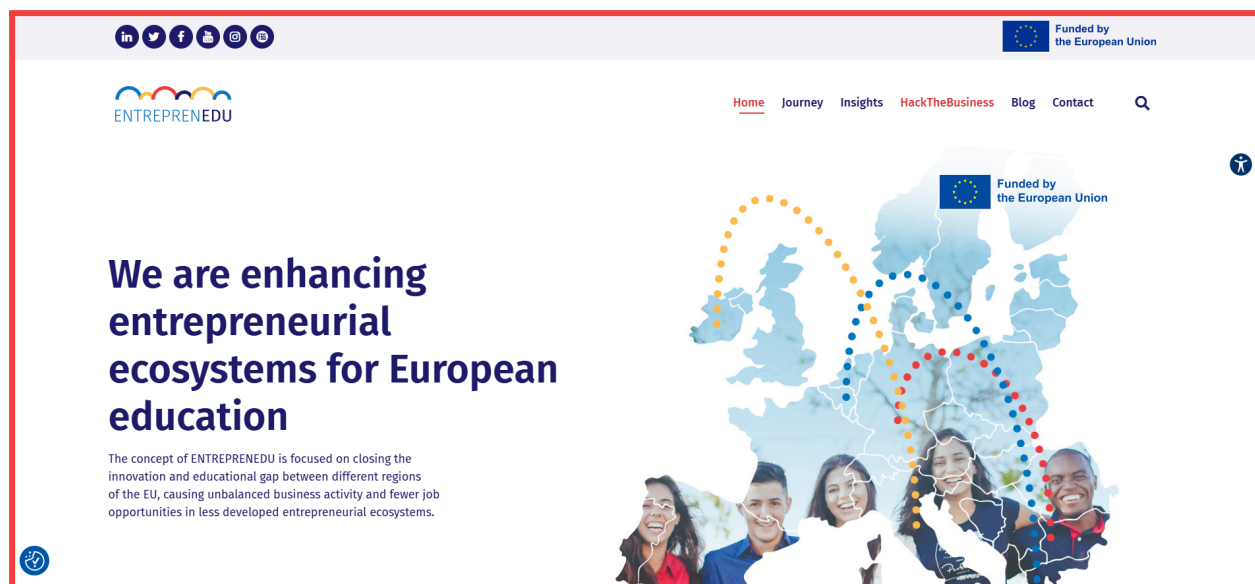

FIGURE 18: ENTREPRENEDU WEBSITE UPDATES - EU FUNDED EMBLEM

Up to M24, the ENTREPRENEDU website was visited by approximately **5,910 active users**, with the average session duration being **2 min and 10 seconds**.

FIGURE 19: ENTREPRENEDU WEBSITE DATA - TOTAL USERS OVER TIME

Interestingly, Figure 19 expresses three peaks between April 2023 and April 2024, corresponding to the special social media campaigns organised for the promotion of the three HackTheBusiness events, as previously explained. In total, the number of **page visits** is **12,742**. Specifically, HackTheBusiness Italy with 1,126 visits, HackTheBusiness Greece with 3,066 visits and HackTheBusiness Bulgaria with 1,440 visits. These high numbers confirmed that special social media campaigns were effective in raising attractiveness around events and raising awareness around ENTREPRENEDU in general.

FIGURE 20: ENTREPRENEDU WEBSITE DATA - VIEWS OVER TIME

Looking at the traffic to the project website throughout the first 24 months of the project is also important for understanding if communication efforts are performing. Figure XY explains that the majority of users are visiting the ENTREPRENEDU website directly (Direct traffic), or through call to actions via social media channels or newsletters (Organic traffic). More specifically, the **number of total sessions is 8,190** with **40,04% engagement rate**.

FIGURE 21: ENTREPRENEDU WEBSITE DATA - SESSIONS OVER TIME

Finally, website users are mostly coming from Italy (~ 380), Bulgaria (~ 650), Greece (~ 790), together with the United Kingdom and Germany (~ 1300).

3.3 F6S PLATFORM

Another important channel used by the ENTREPRENEDU consortium was the [F6S platform](#) (Figure 22). Here, the project managed registration processes for the three Hackathons (Figure 23), as well as related events, such as webinars (Figure 24).

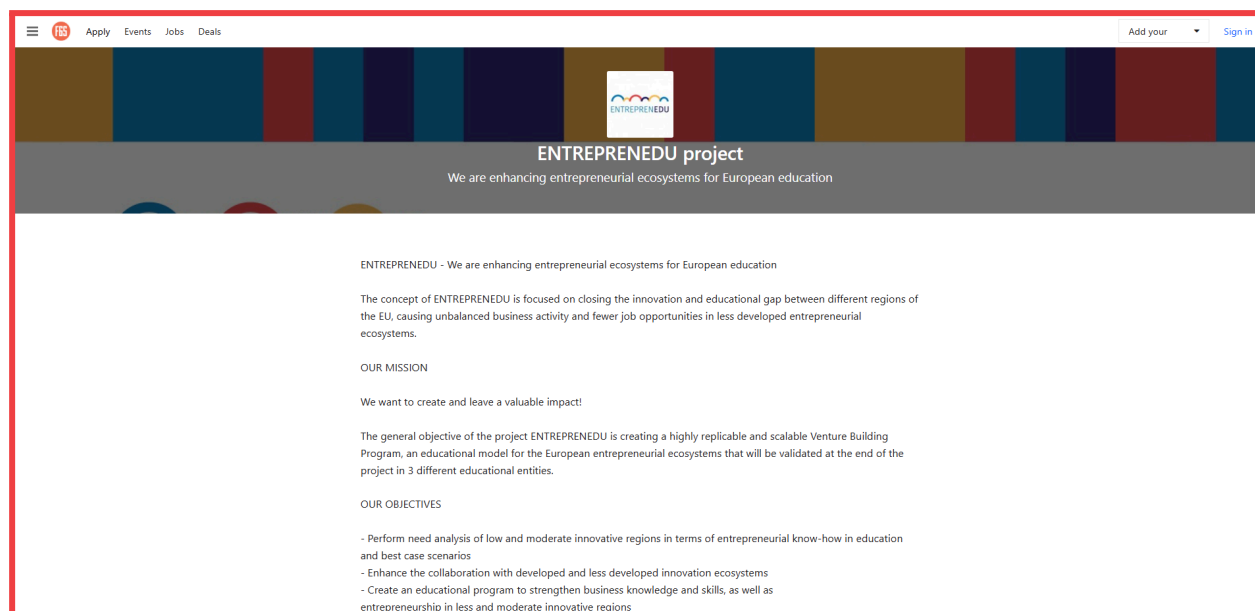

FIGURE 22: ENTREPRENEDU PAGE ON F6S PLATFORM. SOURCE: <https://www.f6s.com/entreprenedu-project/about>. VISITED ON 23/01/2025

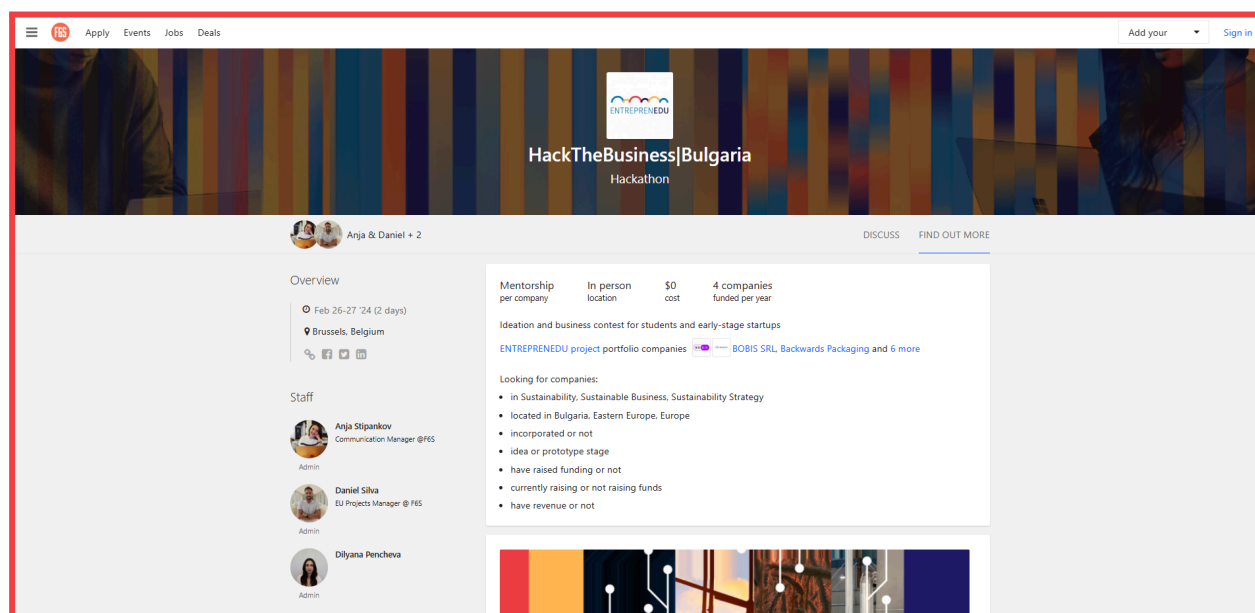

FIGURE 23: HACKTHEBUSINESS BULGARIA REGISTRATION PAGE. SOURCE: <https://www.f6s.com/entreprenedu-hackthebusinessbulgaria>. VISITED ON 23/01/2025

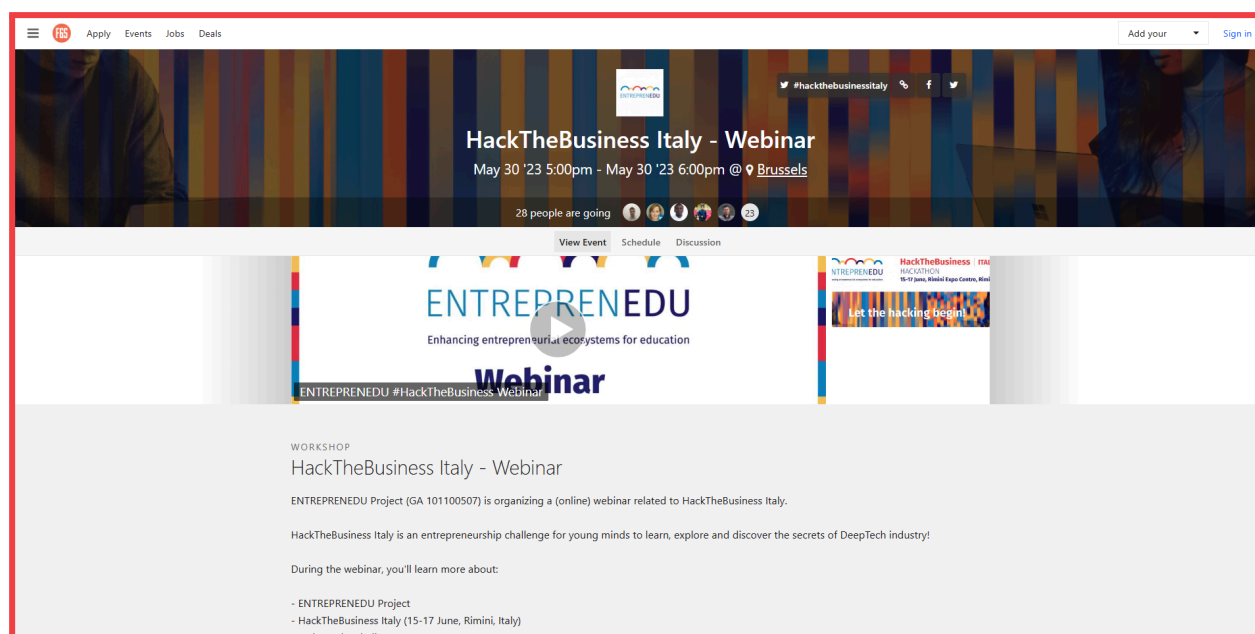

FIGURE 24: HACKTHEBUSINESS ITALY - WEBINAR REGISTRATION PAGE. SOURCE: <https://www.f6s.com/hackthebusiness-italy-webinar>. VISITED ON 23/01/2025

The complementarity with the website allowed an effective management of applicants' registrations, while it has also served as an important vehicle for promoting activities. By being displayed and linked to the ENTREPRENEDU project, selected projects/teams have seen their visibility and credibility grow within the community by being associated with a programme supported and funded by the European Commission.

Moreover, the platform was also used as the main communication channel between mentors and mentees during the implementation of the three editions of the Mentoring & Coaching Programme.

3.4 VIDEOS

An [ENTREPRENEDU YouTube channel](#) was created at the beginning of the project with the goal of it being a video repository and host content ranging from promotional videos to online events and recaps. YouTube served as a valuable platform for disseminating project information. We utilized the channel to create engaging recap videos of special social media campaigns and informative videos introducing the ENTREPRENEDU project.

As already mentioned and showcased in the picture below, the channel currently counts **597 views**, has **17 subscribers** and **1000 impressions** with **11.3h of watch time**. Moreover, the

channel has [1 playlist containing 3 different recordings](#), all related to the special social media campaign - HackTheBusiness Bulgaria. The playlist counts a total of **61 views**.

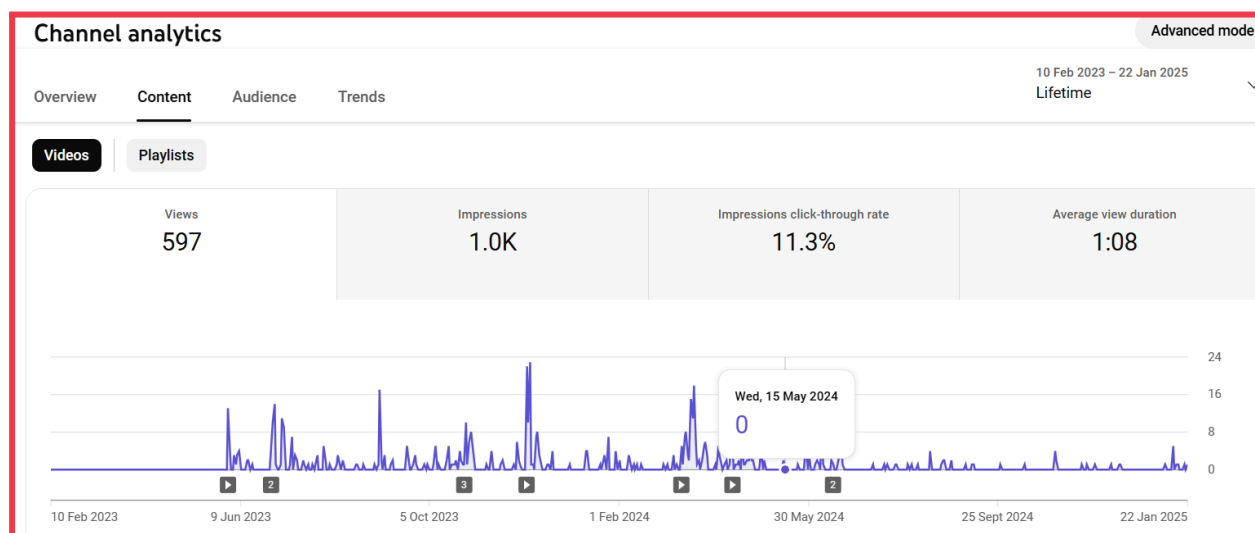

FIGURE 25: ENTREPRENEDU YouTube - LIFETIME ANALYTICS

According to the YouTube analytics, top 3 video performers are:

- [ENTREPRENEDU Project: Get to know us better!](#) - an official project explainer video with 214 views and 0:50 average view duration,
- [ENTREPRENEDU | #HackTheBusiness Bulgaria Webinar](#) - webinar recording with 99 views and 1:57 average view duration, and
- [ENTREPRENEDU | HackTheBusiness Greece](#) - a hackathon recap video with 92 views and 0:32 average view duration.

Having in mind that there are 6 months left until the end of the initiative, a recap video will be created, emphasizing main project highlights and the impact ENTREPRENEDU has established during its life cycle.

3.5 BLOG ARTICLES

The ENTREPRENEDU project has significantly exceeded its initial blogging goals. While the D7.1 document outlined a plan for a minimum of 3 blog articles targeting relevant stakeholders, the project has successfully created and published 24 blog posts on the [ENTREPRENEDU website's Blog page](#).

Collectively, these blog posts have garnered **over 700 views**, demonstrating their effectiveness in reaching and engaging the target audience. Such articles serve various purposes, including informative, inspirational, and promotional content:

- **Informative:**
 - [Exciting news: ENTREPRENEDU project kicks off in Rome](#)
 - [We were in Baku, Azerbaijan to present the first ENTREPRENEDU scientific paper](#)
 - [A Recap of the first ENTREPRENEDU General Assembly Meeting in Rimini](#)
 - [The official start of the ENTREPRENEDU Mentoring & Coaching Programme](#)
 - [Enhancing entrepreneurial education: The start of the ENTREPRENEDU Venture Building Programme](#)

 - [Let's HackTheBusiness in Bulgaria for a Sustainable Future](#)
 - [It's a wrap: Meet the Winners of the Final HackTheBusiness contest held in Bulgaria](#)

3.6 EXTERNAL MEDIA

By M24, the ENTREPRENEDU project has garnered significant media attention, thanks to a strong collaborative effort from Consortium Partners. This resulted in substantial media coverage, including **23 website references, 26 news articles, and 5 magazine pieces**. This extensive media coverage effectively disseminated project information to a wider audience that included the own contexts of the consortium partners, creating significant impact on a local and regional level, during special social media campaigns, mostly HackTheBusiness Greece, raising awareness of ENTREPRENEDU's HackTheBusiness events.

The list of materials has been already provided as Appendix A. Dissemination and Communication activities, in Technical Report (Part B). However, the newest addition to that list are the following magazine articles:

- [Безплатно онлайн обучение по предприемачество е достъпно с кандидатстване до 5 ноември](#) published by uchi.bg from Bulgaria on November 4, 2024.
- [Безплатно онлайн обучение по предприемачество е достъпно с кандидатстване до 5 ноември](#) published by ENTREPRENEUR.BG from Bulgaria;
- [Безплатно онлайн обучение по предприемачество е достъпно с кандидатстване до 5 ноември](#) published by Project Media from Bulgaria on November 4, 2024.

By the end of the project, our goal as a Consortium will be to continue collaboration with external media in sharing ENTREPRENEDU's key outcomes.

3.7 PRESS RELEASES

From the beginning of the project until M24, there are 8 press releases developed and available on the project website, subpage [Press Kit](#). These press releases provided journalists with timely and valuable information, supplementing their stories and fostering a deeper understanding of the ENTREPRENEDU project while aligning with the external media engagement strategy of the project. To be more specific:

- [ENTREPRENEDU project is enhancing entrepreneurial ecosystems for education](#) was published on January 20, 2023;
- [ENTREPRENEDU launches series of hackathons named HackTheBusiness to support young professionals](#) was published on May 2, 2023;
- [Groundbreaking ideas shine at ENTREPRENEDU's first HackTheBusiness competition in Rimini, Italy](#) was published on July 3, 2023;
- [ENTREPRENEDU project launches second HackTheBusiness competition in Greece](#) was published on September 15, 2023;
- [HackTheBusiness hackathon brings together space entrepreneurs for a day in Greece](#) was published on November 15, 2023;

- [ENTREPRENEDU project invites young professionals to shape a sustainable future in Bulgaria](#) was published on February 28, 2023;
- [ENTREPRENEDU project assembled sustainability innovators in Sofia, Bulgaria for the final HackTheBusiness event](#) was published on March 29, 2024, and
- [ENTREPRENEDU Mentoring & Coaching Programme Celebrates Success](#) was published on October 11, 2024.

By the end of the project, we will create an additional press release focusing on dissemination of the final project outcomes and achievements to a wider audience. This will ensure enhanced visibility, and leave a positive lasting impression, as well as serve as a summary of all work carried out and all that has been achieved, representing a comfortable point of reference for the key happenings of the project.

3.8 NEWSLETTERS

The project disseminated key activities and outcomes through a series of newsletters. Currently the ENTREPRENEDU newsletter has **156 subscribers**. Utilising the Mailchimp platform, a total number of **11 newsletters** (regular and specials linked to special media campaigns) were crafted and distributed. To be more specific:

- [Newsletter #1](#) was sent on April 13, 2023 to 17 recipients, with 81.3% open-rate and 25% click-rate;
- [Newsletter special edition - HackTheBusiness Italy](#) was sent on June 14, 2023 to 28 recipients, with 63% open-rate and 11.1% click-rate;
- [Newsletter #2](#) was sent on July 14, 2023 to 50 recipients, with 56.3% open-rate and 18.8% click-rate;
- [Newsletter #3](#) was sent on September 25, 2023 to 50 recipients, with 57.1% open-rate and 4.1% click-rate;
- [Newsletter special edition - HackTheBusiness Greece](#) was sent on November 16, 2023 to 110 recipients, with 61.1% open-rate and 10.2% click-rate;
- [Newsletter #4](#) was sent on January 12, 2024 to 112 recipients, with 48.6% open-rate and 5.4% click-rate;
- [Newsletter special edition - HackTheBusiness Bulgaria](#) was sent on March 14, 2025 to 112 recipients, with 38.7% open-rate and 0.9% click-rate;
- [Newsletter #5](#) was sent on April 19, 2024 to 149 recipients, with 52.3% open-rate and 5.4% click-rate;
- [Newsletter #6](#) was sent on July 12, 2024 to 156 recipients, with 51.3% open-rate and 2% click-rate;
- [Newsletter #7](#) was sent on October 17, 2024 to 155 recipients, with 51% open-rate and 0.7% click-rate, and
- [Newsletter #8](#) was sent on January 14, 2025 to 158 recipients, with 32% open-rate and 0.7% click-rate.

These newsletters served as a valuable communication tool, keeping stakeholders informed about project progress and achievements in a longer-format as compared to regular social media posts, which allows for a deeper exposition of project news. All newsletters were disseminated via ENTREPRENEDU social media channels.

3.9 PARTICIPATION IN DISSEMINATION AND COMMUNICATION EVENTS

The ENTREPRENEDU project recognizes the critical importance of dissemination and outreach activities. To date, the project has successfully participated in five relevant events, each having more than 50 participants:

- **We Make Future in Rimini (Italy) in June, 2023** as a communication effort and part of HackTheBusiness Italy organisation.
 - [YouTube recap video](#)
- **International Astronautical Congress in Baku (Azerbaijan) in October 2023** as a dissemination activity and project outreach session.
 - [Blog article](#)
- **Spring of Innovation in Turin (Italy) in April, 2024** as a communication effort.
 - [LinkedIn post](#)
- **Webit/Future Forum in Sofia (Bulgaria) in October, 2024** as a communication effort.
 - [LinkedIn post](#)
- **International Astronautical Congress (IAC) in Milan (Italy) in October, 2024** as a dissemination activity and project outreach session.
 - [LinkedIn post](#)

However, understanding the significant benefits of continued engagement, the Consortium Partners are committed to attending additional events in the final stages of the project, including the project's Final Event, which will serve as a closing moment and final occasion for dissemination. This collaborative effort will ensure maximum visibility, impact, and knowledge transfer.

3.10 DISSEMINATION OF RESULTS

To ensure the widespread dissemination and accessibility of project outputs, all public deliverables and approved open-access scientific publications were categorised by their respective work packages and uploaded to the dedicated [Resources page](#) on the ENTREPRENEDU project website.

FIGURE 26: ENTREPRENEDU RESOURCES WEBPAGE - THE STRUCTURE

The webpage structure in the form of an accordion allows for easy navigation and access to a wide range of resources, including reports, presentations, tools, guidelines, publications and similar documents. This approach facilitates the effective sharing of knowledge and best practices with the broader research community and interested stakeholders.

At the moment, the ENTREPRENEDU project has produced 5 scientific publications, all available on the Resource page, under Work Package 7 - Communication and Dissemination:

- Maximising Hackathon Impact: A Comprehensive Framework for Sustaining Post-Event Outcome [DOI: <https://doi.org/10.34190/ecie.19.1.2798>];
- Enhancing the European entrepreneurial ecosystem by closing the gap between high and low/moderate innovation regions: the ENTREPRENEDU case [DOI: <https://doi.org/10.34190/ecie.19.1.2798>];
- The ENTREPRENEDU Programme: An Educational and scalable model for enhancing the European Entrepreneurial Ecosystems [DOI: <https://doi.org/10.5281/zenodo.14237207>]
- Empowering Future Entrepreneurs: Developing an Online Entrepreneurial Mentoring Program across diverse EU Regions [DOI: <https://doi.org/10.34190/ecie.19.1.2599>], and
- Tailoring Entrepreneurial Education: Demand-driven Insights for an Entrepreneurial Online Mentoring Program [DOI: <https://doi.org/10.34190/ecel.23.1.2852>]

Furthermore, the ENTREPRENEDU project utilised the **Zenodo platform** for the publication of all scientific publications. The project maintains a [dedicated account on Zenodo](#), where all eligible publications are continuously uploaded and made freely available to the public. This approach aligns with open science principles, maximising the impact and accessibility of research findings and fostering collaboration within the scientific community.

3.11 ADDITIONAL COMMUNICATION AND DISSEMINATION ACTIVITIES

To enhance the overall communication strategy and to strengthen the project's dissemination efforts, a range of supportive materials were developed:

- [Communication kit](#) available in the ENTREPRENEDU website, as a webpage containing all necessary and downloadable information regarding the ENTREPRENEDU brand identity with a goal to unify communication activities, both internally and externally, rendering it unique and immediately recognisable.
- [Press kit](#) as a downloadable document available on the website with a purpose to provide full and immediate support to all media outlets interested in the ENTREPRENEDU project.
- [Standard Project Presentation](#) as an editable presentation available in the main project repository that elaborates ENTREPRENEDU's methodology and objectives, developed for more effective project dissemination during onsite or online events. The presentation below was used for the HackTheBusiness Italy special social media campaign, more specifically webinar.

FIGURE 27: ENTREPRENEDU STANDARD PROJECT PRESENTATION

- 3 Newsletter blurbs as a type of synergy tool with a short paragraph about key project updates with a complementary visual, ready to be used by Consortium Partners or third parties. Here's an example of the newsletter blurb created for the HackTheBusiness Bulgaria special social media campaign:

Enhancing entrepreneurial ecosystems for education

4 CONCLUSION

The ENTREPRENEDU project, dedicated to fostering entrepreneurial skills and mindsets among young individuals, has successfully been implementing the initial version of the **Deliverable 7.1 Dissemination and Communication Plan**, through a multi-channel approach. By dividing a comprehensive communication and dissemination strategy in several phases, the project keeps effectively disseminating its findings, engaging stakeholders, and maximising its impact. This strategy, as consistently refined, proved to be instrumental in achieving the majority of identified KPIs, even before the end of the project's lifetime. The rest of the KPIs are expected to be achieved by the end of the project.

The strategy encompassed a diverse range of channels, including the project website, strategically selected social media platforms (with a particular emphasis on LinkedIn), informative newsletters, impactful press releases, and targeted engagement at key industry events. This multifaceted approach not only enhanced project visibility but also fostered meaningful connections with key stakeholders. With 500% more visitors than initially anticipated present at the ENTREPRENEDU website over time, we can confirm that the communication and dissemination strategy is working effectively.

The "HackTheBusiness" hackathon series emerged as a cornerstone of the project's engagement strategy. These dynamic events, promoted in 3 phases through diverse communication and dissemination channels, such as social media, blog articles, press releases, targeted teasers, videos, dedicated website pages, successfully attracted a diverse pool of young innovators and fostered a vibrant entrepreneurial community. All 3 campaigns, together with the introduction of EDU, the main project character, brought ENTREPRENEDU to the spotlight in front of younger audiences, interested in pursuing their innovative ideas and turning them into a reality.

Dedication of the Consortium Partners and a proactive media outreach strategy aligned with the special social media campaigns, brought significant results. A total of eight press releases were strategically disseminated throughout the project's lifecycle, providing journalists with valuable insights and enhancing public understanding of ENTREPRENEDU's achievements. These releases, readily accessible on the project website's dedicated "Press Kit" subpage, served as valuable resources for media professionals, facilitating accurate and comprehensive reporting on project outcomes. On the other hand, a total number of 55 diverse articles were disseminated, some internally via Blog webpage, some externally via third party media outlets.

Throughout the project, a strong emphasis was placed on continuous improvement and adaptation. The communication strategy evolved in response to emerging trends and unforeseen challenges, such as the transition of Twitter to X, which caused the stagnation of ENTREPRENEDU's X account. As a mitigation strategy, the communication team has proactively shifted its effort to LinkedIn which proved itself as the strongest amongst other 2 ENTREPRENEDU social media channels (Facebook and Instagram). This adaptability, coupled

with a data-driven approach to decision-making, ensured that communication efforts remained effective and aligned with project objectives.

Furthermore, in the late stages, the project is prioritizing open access and knowledge sharing. A dedicated Resources page on the project website was developed to provide easy access to a repository of project deliverables, reports, and other valuable project outcomes. Moreover, the project embraced open science principles by utilising the Zenodo platform to publish all scientific publications, ensuring their accessibility and fostering collaboration within the broader research community.

Besides sharing open knowledge, the main goal is to promote the ENTREPRENEDU journey and Venture Building Programme as a scalable and replicable educational model to academia. During the last six months of the project, all Consortium members will collaborate in providing our target audience with the latest project information and practical activities, such as implementation of the Venture Building Programme in different academic facilities ([example](#)). Lastly, until the end of the project the team's effort will be made for achieving all key performance indicators.

Having in mind that the ENTREPRENEDU project is currently in the M25 of 30, final results of the dissemination and communication activities, which are expected to be positive, will be made available in the **Technical Report of the Final Periodic Report** once the project comes to an end.

<p>If you are thinking about diving into the world of #entrepreneurship and you don't know where to start, we recommend you this #podcast 💡</p>	<p>RePost from AccelerAction Project</p>	<p>https://www.linkedin.com/feed/update/urn:li:activity:7092142422712852480</p>
<p>After an adventurous detour in Bulgaria, #EDU is back in Greece! 🌟 He is saying #hi from Meteora, where he's together with our teammates from University of Thessaly 🙌</p> <p>#Hi back to you, EDU! 🙌</p> <p>🇧🇪 🇮🇹 🇬🇷</p>	<p>EDU SUMMER TOUR</p>	<p>https://www.linkedin.com/feed/update/urn:li:activity:7093136649286524928</p>
<p>This Friday, #EDU is greeting us from Berlin where he met our teammates from Fraunhofer IPK 🙌</p> <p>Enjoy in Germany, EDU! 📷</p> <p>🇧🇪 🇮🇹 🇩🇪</p>	<p>EDU SUMMER TOUR</p>	<p>https://www.linkedin.com/feed/update/urn:li:activity:7095699932824690689</p>
<p>After he had a great time in Berlin 📷 #EDU is in Brussels, Belgium to meet our teammates from EBAN - European Business Angel Network 🙌</p> <p>Any recommendations for EDU while in Brussels? Write us in the comments and we will transfer the message! 🙌</p> <p>🇧🇪 🇮🇹 🇧🇪</p>	<p>EDU SUMMER TOUR</p>	<p>https://www.linkedin.com/feed/update/urn:li:activity:7097884766372265984</p>
<p>From Belgium to Ireland, #EDU is in Dublin to meet our teammates from F6S Innovation 🙌 P.S. We are not quite sure way, but we have a feeling that EDU will enjoy his time in Dublin! 😊</p> <p>Happy weekend everyone! 🙌</p> <p>🇧🇪 🇮🇹 🇮🇪</p>	<p>EDU SUMMER TOUR</p>	<p>https://www.linkedin.com/feed/update/urn:li:activity:7100830175772180480</p>

<p>#EDU had the greatest time while traveling around #Europe and meeting #ENTREPRENEDU teammates. 🙌 At his very last stop, he is meeting Luiss Guido Carli University team at the #TreviFountain 🗿</p> <p>EDU, thank you for sharing with us your #EuroTrip 🇮🇹</p> <p>Until the next adventure, #arrivederci! 🙌</p> <p>●●●</p>	EDU SUMMER TOUR	https://www.linkedin.com/feed/update/urn:li:activity:7103298747081588736
